- **Databases:** PostgreSQL, MySQL, MongoDB
- **Cloud Services:** AWS (EC2, S3, Lambda)
- **DevOps Tools:** Docker, Jenkins, CI/CD
- **Version Control:** Git, GitHub, GitLab
- **Others:** RESTful API Development, GraphQL, Agile Methodologies

---

**Professional Experience:**

**Full Stack Developer**
Tech Innovations Inc., New York, NY
*July 2020 - Present*

- Developed and maintained responsive web applications using React and Node.js.
- Designed and implemented RESTful APIs for various projects, enabling smooth integration with front-end applications.
- Created and optimized database schemas in PostgreSQL and MongoDB.
- Collaborated with UX/UI designers to create user-friendly interfaces and improve overall user experience.
- Implemented CI/CD pipelines using Jenkins and Docker to automate build and deployment processes.
- Led a team of 3 junior developers, providing mentorship and code reviews.

**Software Developer**
Web Solutions LLC, San Francisco, CA
*May 2018 - June 2020*

- Developed web applications using Angular and Express.js.
- Worked closely with clients to gather requirements and deliver high-quality solutions on time.
- Enhanced application performance by optimizing database queries and reducing server response times.
- Integrated third-party APIs for payment processing and social media connectivity.

---

**Education: Bachelor of Science in Computer Science**
University of California, Berkeley
*Graduated: May 2018*

---

**Certifications:**

- AWS Certified Developer – Associate
- Certified Kubernetes Application Developer (CKAD)

---

**Projects:**

- **Project Management Tool:** A full-featured project management web application built using React and Node.js, with real-time data updates and collaboration features.
- **E-commerce Website:** Developed an e-commerce website with a custom CMS and integrated payment gateway using Stripe API.
